

BasketForm AI

Shot Mechanics Analyzer & Coach

Upload your shot — get AI-powered feedback in seconds.

The Problem & Our Solution

The Problem

- Most players have no access to professional coaching
- Video analysis is manual, slow, and expensive
- No instant, actionable feedback after practice

Our Solution

- Upload a short video of your shot
- AI analyzes pose & mechanics with MediaPipe
- Get a score, visual breakdown, and 3 key tips

Our Team

Karim Gimadiev

Project Manager

Roman Santalov

ML Engineer

Kamil Nizamov

ML Engineer

Arseniy Fedorov

Full-Stack

Damir Galiev

ML Analyst

Core Features — MVP v1

Video Upload

Drag-and-drop MP4/MOV/AVI,
up to 100 MB

Pose Analysis

MediaPipe skeleton extraction
& scoring

Results Dashboard

Radar chart, pose scatter plot,
score 0–100

AI Feedback

3 actionable takeaways in plain
language

PDF Export

Download your analysis report

User Accounts

Profile management & session
persistence

Roadmap

Sprint 1 **MVP v1**

Video upload · Pose analysis
AI feedback · PDF export · Accounts

Sprint 2 **MVP v2**

Real ML pipeline · Progress tracking
Session persistence · Batch upload

Sprint 3 **MVP v3**

Coach sharing · Social feed
Mobile app · Advanced metrics

Client Collaboration

In Use by Client

- Video upload & drag-and-drop flow
- Automated analysis results page
- PDF export of analysis report
- User profile management

Feedback & Challenges

- ✓ Clean upload UI — approved
- ✓ PDF export meets needs
- ✓ Real ML needed (mock OK now)
- ✓ Session persistence requested
- ✓ Batch upload for future sprint

Tech Stack & Architecture

Frontend

HTML · CSS · JavaScript · Canvas API · Chart.js · jsPDF

Backend

Go 1.21 · Standard Library HTTP Server · REST API

ML Pipeline

Python · MediaPipe Pose · OpenCV · scikit-learn

Infrastructure

GitHub Actions CI · Docker · Linux VPS · Lychee link checks
